About Me

Hi, I'm Imeshi Aloka, a creative web designer with a background in Biomedical Technology. I enjoy designing clean, userfriendly websites while also being deeply curious about how technology enhances healthcare. Whether it's coding interfaces or exploring biosignals, I love combining creativity with science to make a realworld impact. Currently, I'm expanding my skills in both fields — building responsive web projects and working with biomedical data like EMG and EEG. Let's build something meaningful together!

Experience & Skills

Freelance Web Designer — 2023 - Present
Designing creative and user-friendly websites

Biomedical Data Analysis
Working with signals like ECG, EMG and EEG

Electronic Hobbyist — 2023 - Present
Developing simple Arduino-based circuits and biomedical sensor integrations.

Web Design Tutor — 2023 - Present
Conducted sessions on HTML, CSS, and responsive design for beginners. Focused on practical skills and real-world applications.

Education

Biomedical Technology — 2024 - Present
Gampaha Wickramarachchi University of Indigenous Medicine

Web Development Diploma — 2023
BCI Campus, Negombo

Advanced Level *Wekada National College, Yogiyana* — 2020 – 2023

Information & Communication Technology - B
Science For Technology - C
Engineering Technology - S

Ordinary Level
President College, Nattandiya — 2019

Mathematics - A
Sinhala - A
Science -C
English -A
History - A
Religion - A
Art - A
Commerce - C
ICT - B

Work Experience

Biomedical Technician (assistant) *Star Hospital*

- Assisted in conducting maintenance and repair on medicalequipment such as diagnostic imaging machines and patient monitors.
- Managed inventory of medical supplies and equipment parts toensure operational readiness.

I do hear by certify that above details are true and correct according to my knowledge.
